RE: Class 2 Permit Modification Request 10-03476
VTD Additional Equipment
UTD982598898

Dear Mr. Shrum:

On November 1, 2010, EnergySolutions submitted a Class 2 Permit modification request to add additional equipment to the Vacuum Thermal Desorption Unit (VTD). A temporary authorization (10-03477) was issued for this modification request on November 4, 2010.

This request met the need for a Class 2 because it made changes to a tank unit without increasing the capacity of the unit. In conjunction with the Class 2 request, a public information meeting was held on December 9, 2010. No comments were received.

The only change necessitated by the request is addition of a definition to Attachment II-1-12-2, *Pre-Demonstration Plan for Volatile and Semi-volatile Organic Compounds*. Also, the VTD drawings in that attachment were also updated.

Modification request 10-03476 is hereby approved. With this approval, the temporary authorization granted on November 4, 2010 is terminated. If you have any questions, please contact Otis Willoughby at (801) 536-0220.

Sincerely,

ORIGINAL DOCUMENT SIGNED BY SCOTT T. ANDERSON ON 2/2/2011

Scott T. Anderson, Executive Secretary
Utah Solid and Hazardous Waste Control Board
