NOTICE OF PUBLIC COMMENT

EnergySolutions LLC

Mixed Waste Facility

UTD982598898

Treatment Variance Request for Wastes Containing Enriched Uranium Residuals

The Director of the Division of Waste Management and Radiation Control is seeking public comment on a request from EnergySolutions to receive cemented monoliths containing enriched uranium residuals at its Mixed Waste Facility. This material retains hazardous waste codes for barium, cadmium, chromium, lead, and spent solvents. The generator has encapsulated the waste in concrete for security reasons.

EnergySolutions proposes to treat this waste by macroencapsulation in the Mixed Waste Landfill Cell rather than perform chemical stabilization as required. This request is based on the fact that the waste has already been encapsulated in concrete at the generator's site. Treating this waste by the required method would mean grinding the waste and potentially exposing workers to unnecessary contamination. The proposed treatment will further encapsulate the waste and protect it from contact with precipitation, thereby decreasing the potential of leaching.

EnergySolutions may receive up to 600 cubic feet of this waste. Final disposal of the waste will occur in the Mixed Waste Disposal Cell.

The public comment period to receive comments on the Treatment Variance Request will commence on November 8, 2016 and end on December 7, 2016. A public hearing will be held upon request.

Documents related to this request can be reviewed at the following location:

Division of Waste Management and Radiation Control
Multi Agency State Office Building
195 North 1950 West, 2nd Floor
Salt Lake City, Utah

For the public's convenience, an unofficial copy of the Treatment Variance Request is available on the Internet at <http://www.deq.utah.gov/NewsNotices/notices/waste/index.htm#phacp>

Written comments will be accepted if received by 5:00 p.m. on December 7, 2016 and should be submitted to the address below. Comments can also be hand delivered to the Division address above and must be received by 5:00 p.m. on December 7, 2016:

Scott T. Anderson, Director
Division of Waste Management and Radiation Control
Department of Environmental Quality
P.O. Box 144880
Salt Lake City, Utah 84114-4880

Comments can also be sent by electronic mail to: dwmrcpublic@utah.gov. Comments sent in electronic format should be identified by putting the following in the subject line: Public Comment on EnergySolutions Variance Request. All documents included in comments should be submitted as ASCII (text) files or in pdf format.

For further information, please contact Otis Willoughby of the Division of Waste Management and Radiation Control at (801) 536-0220. In compliance with the Americans with Disabilities Act, individuals with special

needs (including auxiliary communicative aids and services) should contact Dana Powers, Office of Human Resources, at (801) 499-2117, TDD (801) 903-3978 or by email at dpowers@utah.gov.
