Governor

GARY HERBERT
Lieutenant Governor

June 11, 2008

Bruce Costa, Director
Central Utah Public Health Department
70 Westview Drive
Richfield, UT 84701

Dear Mr. Costa:

This letter is notification that the total funding allotment for Central Utah Public Health Department for FY2009 is $120,920.00. This amount represents an increase of $1,093.00 in total funding over FY2008, and includes a 5% cost of living adjustment (COLA) increase for personal services and is made with no change to the contract.

Modification in funding and work plan are outlined below as negotiated between you and DEQ and will be considered part of the previously negotiated work plan.

- COLA increase of $1,373.00
- Reduced UST funding from $14,020.00 to $13,740.00 with a corresponding reduction of UST tanks inspected.
- All other funding remains the same

Funding and work plan adjustments become effective July 1, 2008. Annual reports on current fiscal year work are due to Jodie Swanson by August 31, 2008.

We are incorporating by reference into your Environmental Services Delivery Plan (ESDP), the Memorandum of Understanding (MOU) you entered into with the Division of Water Quality regarding petroleum releases to the environment from transport related spills. We will also post this signed MOU on the ESDP website for historical reference.

Over the past few month representatives of DEQ participated in meetings with individual Local Health Departments to discuss emergency response issues. The primary purpose of these meetings was to identify ways to improve coordination between the agencies during emergency

incidents and ensure proper oversight of response and cleanup activities. The attached table lists the lead agency designations that were developed during these meeting. Please review the table and provide feedback to DEQ as necessary.

At a recent Partnership Council Meeting a variety of emergency response issues were discussed and a number of recommendations were presented to the attendees. DEQ will continue to work with the appropriate LHD representatives to resolve these issues and ensure that the agencies effectively coordinate responses to emergency incidents.

Please place a copy of this letter in your contract file for future reference. Thank you for your continued partnership efforts.

Sincerely,

William J. Sinclair
Deputy Director
