Ogden, UT 84401

Subject: Approval to Permit and Administer Rules Regarding The  
Packed Bed Media Alternative Onsite System

Dear Mr. House:

We received your letter dated October 22, 2007, requesting approval for administration and oversight of packed bed media alternative onsite systems as required by Utah Administrative Code R317-4. We have reviewed the information that you have submitted including the most recent ordinance titled "Weber-Morgan Health Department - Onsite Wastewater Treatment Systems Regulation" adopted September 24, 2007, and have determined that it complies with all requirements for alternative onsite wastewater regulations that coincide with the changes in the Utah Administrative Code rules that were effective July 1, 2006.

You may now proceed to issue permits for all alternative onsite wastewater disposal systems per UAC Rule R317-4.

We appreciate the work you have done in developing your alternative onsite wastewater program. If you have any comments or questions, please contact David Snyder, of my staff, at (801) 538-9218.

Sincerely,

Walter L. Baker, P.E.  
Director
