Subject: Denison: DRC Round 1 Interrogatory for Cell 4B
Attachments: Cell4B Rnd1 080529.doc

Harold,

URS has finished the Round 1 Interrogatory for the Cell 4B proposal, see attached WORD file. This is in response to the 12/07 Geosyntec Consultants report, entitled "Cell 4B Design Report White Mesa Mill Blanding, Utah", submitted to the DRC under a 12/7/07 DUSA cover letter.

I will send a paper copy out to you early next week under a DRC transmittal letter.

If you have questions, feel free to call me. I can also make the URS team available for a conference call if that would help communicate the issues at hand.

Later,

Loren
