<p>5. Water sprays used on storage piles? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>Storage pile size: _____</p>		<p>6a. Number of conveyor belt transfer and drop points: _____</p> <p>6b. List manufactured dates for all conveyor belts</p>																																					

- NOTE:**
1. Submit this form in conjunction with Form 1 and Form 2.
 2. To relocate an Aggregate Plant submit Form 15b.
 3. Call the Division of Air Quality (DAQ) at **(801) 536-4000** if you have problems or questions in filling out this form. Ask to speak with a New Source Review engineer. We will be glad to help!
 4. Equipment listed on this form may be subject to New Source Performance Standards. If so, additional information may be requested for the engineering review.

Instructions

1. Indicate the type, manufacturer/model, design capacity and manufactured date of the equipment. Mark the appropriate box for the kind of crushing at the facility and indicate the type (cone, ball, jaw) of crushing being done.
2. Mark the appropriate box for the control device for the emission points.
3. List the specifications of the water sprays. Check vendor literature or call sales agent.
4. Indicate the maximum amount of product that will be processed by the facility in tons per hour, the number of hours the facility will be run per day and number of days/year.
5. Are water sprinklers used on storage piles? Indicate the size of the storage piles.
6. Provide the number of belt drop points and list manufactured dates for all your conveyor belts.
