Freestanding Pollution Control Property (FPCP) and Pollution Control Facility (PCF)
Division of Air Quality (DAQ)

Application for Sales and Use Tax Exemption Certification

Read before completing this form.

1. To receive certification, primary purpose (primary function) of the FPCP or PCF must be to prevent, control, or reduce air pollution. Typically, (1) air pollution must be in the stream before the FPCP or PCF, and (2) the air pollution must be prevented, controlled, or reduced as a result of the FPCP or PCF.

2. A person may file an application after entering a construction contract for or commencing construction of the FPCP or PCF.

3. Complete the application for Sales and Use Tax Exemption Certification and send it to the Division of Air Quality.

4. The DAQ will only process the application if the information is complete. The division may request additional information before the application can be considered complete. Once the application is complete, the filing date is fixed, and the 120 days processing period begins. The certification will consist of a letter signed by the Director and will list what FPCP, PCF, or components are being certified. The certification is for the FPCP or PCF.

5. Before a certification is given, DAQ may consult with the Utah State Tax Commission.
