**Utah Electronics Waste Program Annual Report
For Starlite Consumer Electronics (USA), Inc.**

August 1, 2012

Collection Program

Starlite Consumer Electronics (USA), Inc. (Starlite) manufactures Disney branded televisions. Consumers in Utah are able to return their used Disney televisions for recycling through a mail-back program free of charge. Consumers are able to access information about the program on the Starlite recycling website at <http://www.starlight.com.hk/web/recycling.html>. Starlite has partnered with AERCCR, and its Take-Back and Regulatory Compliance management system to offer this program, which can be accessed through the Starlite recycling web page or directly at Starlitetakeback.aerCCR.com.

Consumers in Utah access the website and enter information about their location and equipment. Based on this information, a shipping label is generated, which the consumer can utilize to ship their used Disney television for recycling free of charge. Consumers merely pack the product and ship it using the free shipping label.
